

IN THE CLAIMS:

The current status of the claims is as follows:

1 - 6. (Cancelled)

7. (Original) A luminaire comprising:

- a) a lower portion of square cross-section with four sides and supporting a plurality of fluorescent lamps to illuminate the space therebeneath,
- b) an upwardly projecting rail portion extending along each side of said lower portion,
- c) a dome-shape upper portion above said lower portion and having a curved support tube upstanding at each corner of said lower portion to meet at a peak and form a support structure,
- d) opaque side panels extending between each pair of support tubes and supported thereon to form said dome-shaped upper portion,
- e) a retainer on each support tube to hold said side panels,
- f) at least one removable side panel for supporting an advertising sign, each removable side panel being mounted over one of said opaque side panels,
- g) said upper portion having at least one lamp to illuminate each advertising sign thereon, and
- h) a top wiring, suspension box at said peak.
